## char-grilled steaks

All of our quality *Graziers* beef cuts are export quality hormone free beef. The cattle are raised on natural pastures in **North Central Queensland** under the guidance of a strict quality assurance scheme.

The *Graziers* specifications ensure that we end up with the highest quality beef indicated by the smooth, close-grained texture, carnation red colour & finely marbled fat within the lean muscle.

These specifications ensure you will enjoy a healthy, tasty, tender, juicy & delicious steak every time. Our supplier guarantees it.

### Grain-fed

Grain-fed beef is derived from cattle which are fed for a minimum specified number of days on a nutritionally balanced, high-energy feed. Uniformity of feed results in a greater consistency in the characteristics of the product. Grain fed beef is characterised by the white fat & the deposits of fat through the muscle tissue. This intra-muscular fat is known as marble & it can contribute towards improved tenderness & taste.
